PRIYADHARSHINI

has successfully completed the online, non-credit Specialization

International Business

In the International Business Specialization, learners developed a broad foundational understanding of the scale, scope, and execution of contemporary international businesses. Learners reviewed the differences and challenges of international versus domestic business management. They explored the history, theory, and economics of globalization and the relationships of these to international business. Learners surveyed the implementation of business functions in a global context, including marketing, human resource management, supply chain management, logistics, and foreign currency exchange. Finally, learners examined the methods businesses use to engage in international commerce including exporting, contract entry, and foreign direct investment.

Stephen R. Lawrence,
PhD

Associate Professor
Emeritus

Leeds School of
Business

University of Colorado
Boulder

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.
